Theme for Spring 2023: Seeing God through the life of David.

A lot of times when we study men and women of the Bible, we respond two different ways: glorify them or look down on them. Both responses often occur when looking at the life of King David. Neither response, however, should be our final conclusion. Scripture often teaches us who God is through the complicated lives of His anointed ones. This spring, we will be examining David's life in search of the one His heart was after – Yahweh (God) – while also learning a little bit more about ourselves along the way.
